> **Classmate™** **Service Control Centre**

An effective service installation solution. Designed specifically to meet the demanding requirements of the education industry.

The efficient modular design provides enhanced system security in a tamper-resistant console.

Simple, flexible design accommodates all services and devices. The perfect choice for both new and retrofit installations.

> Classmate™ Service Control Centre

> Economical and Efficient

Every ClassMate Service Control Panel is shipped directly to site, ready for installation and pre-configured to be fitted with the required system devices. This efficient design eliminates secondary operations, allowing the skilled trade workers to complete the services installations quickly and on schedule.

> Tamper Resistant

The extruded aluminum shell and faceplates provide a substantial level of component security. All cabling and devices are housed within the system and locking components are available for restricting access to telephones, thermostats or other sensitive equipment. All device connections inside the shell are to be in accordance with local and standards.

> Easy Maintenance

Services Control Centre require very little maintenance and can be cleaned by custodial staff using a damp cloth or sponge with a mild soap or detergent. Stubborn stains such as tea or coffee can be removed using a mild household cleaner and a soft bristle brush.
