> Labour | Delivery | Recovery

Interspec Systems' LDR (Labour / Delivery / Recovery) headwalls are designed to provide an added comfort level to patients without compromising the medical services required in the room.

Spacious wooden cabinets discreetly conceal all secondary use medical equipment such as flow metres, suction regulators, vacuum bottles, etc. until they are needed. The tambour slat cabinet doors smoothly open to easily access wall mounted medical equipment.

LDR units are manufactured out of hardwood and come in a variety of wood stain colours.

> Labour | Delivery | Recovery Specifications

Basic Construction: Enclosure shall be constructed of extruded, satin clear anodized aluminum sections to provide a modular, surface mounted wall unit. Horizontal raceways and vertical chase shall be factory assembled and wired to include mechanical and electrical components as shown on these shop drawings. Anodized aluminum fascia shall be removable for access to individual components mounted within the plastic laminate covered raceway sections of the Neonatal Units. Primary electrical conduit runs to the unit are provided by the electrical contractor and shall be accommodated by upper terminal enclosure furnished as an integral part of the wall. All secondary wiring within the wall unit enclosure shall be enclosed in the fixed wiring raceways and shall be enclosed in terminal enclosure indicated on the shop drawings. All wiring shall be marked, colour coded and tie wrapped to facilitate easy circuit identification.

The vertical chase shall incorporate removable panels that shall be furnished with a plastic laminate to match the horizontal raceway members. The access panel containing the secondary circuit breakers shall feature a door with concealed hinges for access to the breaker handles. The colour of the laminate to be selected by the hospital, or by the architect from Formica, Wilson Art/Arborite, Pionite, Nevamar.

Components:

- > Medical gas station outlets.
- > Power Outlets.
- > Internal Ground Bus.
- > Lighting Fixture.
