ALLEGRO

- 1 Resilient, easy-to-clean decorative laminate panels help reduce contaminations
- 2 Sturdy, anodized aluminum framework is virtually maintenance-free
- 3 Convenient, easy-loading vertical equipment management tracks
- 4 Medical gas outlet stations can be placed wherever they're required
- 5 Nurse call station and code blue terminals are placed as required
- 6 Universal horizontal equipment management rails accommodate all types of accessories
- 7 Communications and power outlet receptacles are custom-located
- 8 Easily accommodates HVAC and negative pressure isolation systems
- 9 Additional, easy-to-reach power outlets where needed

Elegant, versatile and user-friendly.

Installations can be surface-mounted or in a recessed, flush-mounted format.

INTERSPEC ALLEGRO Series Headwalls are built to suit the demanding needs of today's busy hospital environment. Horizontal universal equipment management rails allow the mounting of virtually any type of accessories while handy vertical equipment management tracks provide even more flexibility.

Medical gas, communications and electrical systems are all custom-configured to the customer's specifications and designed for easy hook-up and maintenance.

The entire system is built on a rugged, anodized extruded aluminum framework clad in sturdy MDF panels that are covered in rich, colourful laminate providing a stylish appearance. The durable laminate provides a tough surface that's sanitary, easy-to-clean and care for. A virtually unlimited choice of contemporary laminate patterns and colours are available.

HOSPITAL HEADWALLS
CUSTOM-BUILT TO YOUR
SPECIFICATIONS TO SUIT
YOUR HOSPITAL'S NEEDS

HOSPITAL HEADWALLS

Fully Integrated Medical Gas Systems

are factory-installed by Interspec and include all lines, manifolding and testing to CSA Z7396 and NFPA 99 standards. All components are UL listed.

All Electrical Equipment

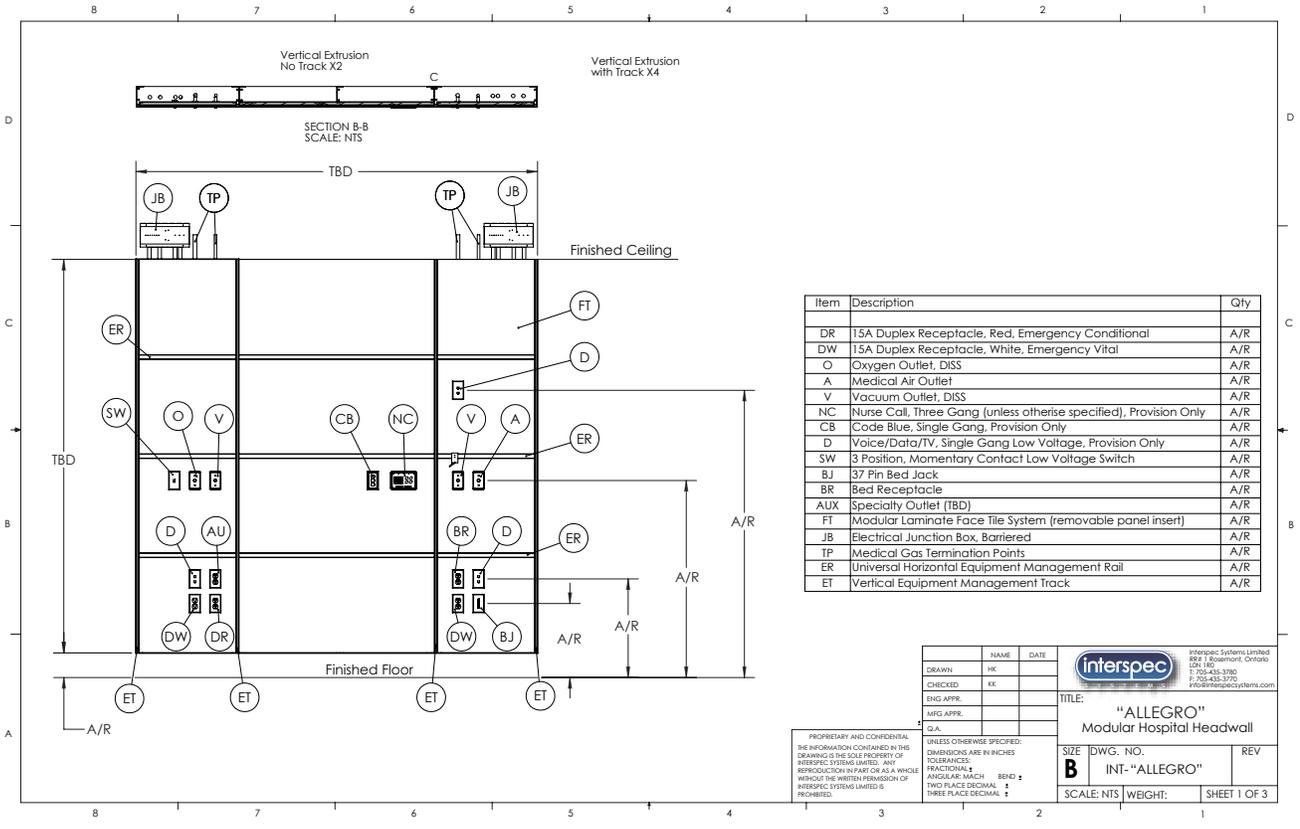

is UL/CSA listed, manufactured to NFPA 99 standards and certified for hospital use. All power outlets, switches, communications devices as well as the gas outlet stations are located according to the customer's specifications. Through the use of singular terminal connections and convenient electrical box locations, all systems can be quickly and easily hooked up by the installing electrical and mechanical contractors.

Allegro headwalls

can be easily reconfigured and updated to suit future demands and changing conditions. Heavy-duty horizontal equipment management rails easily handle larger accessories and devices. All rails can be custom-configured.
